## A Style Guide for Outdoor Living

Outdoor living is easier and more affordable than ever.

There is nothing more enjoyable than relaxing in your very own outdoor retreat. Creating a customized outdoor living space enables you to enjoy your backyard in all seasons.

Whether you want to relax after a stressful week, entertain friends, or just spend time with your family, a space can be created to fit your personal needs.

We transform your desires to reality by creating personalized outdoor spaces that become a natural extension of your home. In today's world, you have many options to define your space and customize it to your needs.

The first step in making your dream come to life is a great design. Follow the 5 steps on page 2 to ensure the design fits your needs.

A Showcase Designer can help you create your perfect outdoor retreat.

# **SHOWCASE** Landscape Design & Build

*Make Your Property a Showcase*

**Follow these important guidelines to help ensure your outdoor space exceeds your expectations and meets your budget.**

## **Define your space**

Create clear objectives of what you would like to use the space for (entertaining, recreation, relaxation, etc.)

## **Amenities for the space**

Decide on the options you would like to have (kitchen, fireplace, pool, spa, etc.)

## **Local Codes**

Have your design professional find out what options you will be permitted to build within your area before you design the space.

## **Examples**

Do a little research before meeting with your designer to give them examples (pictures, magazines, books) of the “look” you are trying to achieve, or ask your designer to show you examples of what is possible.

## **Budget**

Have a budget set for the project to give to your designer. This will help ensure the project will be within the cost expected.
